This video is the first excerpt from the film 'Revelation' produced in 2007. The purpose of the film is to activate the celestial archetypes in the Book of Revelation on the Sacred Mountain Rila in Bulgaria. It traces a spiritual journey led by Leon Moscona to the reality of the New Heaven and the New Earth where humankind will start the New Cycle of evolution. On the way to this reality the participants have to meet the New Coming of Christ and other Divine Masters, to join the 144 000 Initiates around the Throne of God and to participate in the Divine Wedding in Heaven.

In the mythological year 2012 humankind has to replace the fear of a destructive Apocalypse with an experience of the positive 'Celestial Revelation' envisaged by St. John in the last Chapters of the Book of Revelation. Leon Moscona is an Initiate of the coming reality of the New Heaven and the New Earth and activates the archetypes of the 'Celestial Apocalypse'. This series of videos comes under the title TheRevelation215 because this is the key to the 'Celestial Apocalypse': Then the One Who sits on the Throne said, "And now I make all things new!" (Revelation 21:5).
